NCDOT Reducing Speed Limit Along Portion of Davidson-Concord Road

CHARLOTTE – The N.C. Department of Transportation is reducing the speed limit from 55 mph to 45 mph along a portion of Davidson-Concord Road in Davidson.

After further review, the NCDOT determined that 45 mph is a safe and reasonable speed along Davidson-Concord road from south of Robert Walker Drive to N.C. 73. NCDOT crews will change the speed limit signs in that area on Thursday, June 16. The new speed limit becomes effective once the updated signs are installed.

The Department is also planning a future reduction of the speed limit from 45 mph to 35 mph along Davidson-Concord Road from south of Robert Walker Drive to the roundabout. The speed limit change will be implemented once the new residential development in that area is 25 percent occupied. On-street parking along this section of Davidson-Concord Road will be implemented with the commercial aspects of the development.

For real-time travel information, visit the Traveler Services section of NCDOT.gov or follow NCDOT on Twitter.
